

"Anyone who thinks they don't need a proactive cyber defense doesn't understand the extent of their exposure."

~Michael Dochterman

Is your business ready to combat a Cyber Attack?

Tuesday, June 26 • 11 - 2 pm

NTMA Training Center 12131 Telegraph Road, Santa Fe Springs

Presented by:

Michael Dochterman, Precision Manufacturing Insurance Services

Mike Mutschler, Resource Computer Solutions

Don't miss this valuable presentation from our industry experts to help you plan for your company's cyber defense!

Topics of Presentation:

- Cyber-attacks and IT events are unavoidable
- Best practices can mitigate a majority of your risks
- Every company needs to analyze the potential cost of data/IT loss
- Every company needs a proactive cyber/IT continuity and recovery plan

When you leave our workshop:

- You will know that you are constantly at risk of cyber attacks
- You will receive a list of best practices to implement at your business
- You will receive an analytical tool to determine the degree of risk and cost of disruption for your company
- You will receive an IT continuity/recovery plan template with instructions on where to get help

*Costs include lunch: **\$25 for members** and **\$45 for non-members**. **RSVP by June 19th.***

*Register at our website: **lantma.org** or call **949-369-7309**.*
