

**Our Manufacturing Workforce In Southern California**

# **TRAINING, RETAINING, & DEVELOPING TALENT FOR YOUR SHOP**

Retaining and training employees in this job market is a struggle for manufacturers. The NTMA Machinist Career College is helping to fill this gap in training entry-level employees for your shops.

Join us at the rebranded NTMA Machinist Career College for our first 2021 in-person event! CMTC and Moseys Production Machinists will share what they have done together to engage, retain, and continually up-skill their employees to effectively fill the gap between entry-level and next-level training.

Learn how to develop your employee's next set of skills ensuring your workforce up-to-date on the newest technology. This is a great opportunity to also network with other manufacturing leaders.

**Register today and develop a workforce that will help take your shop to the next level!**

**NTMA Machinist  
Career College  
12131 Telegraph Rd  
Santa Fe Springs**

**\$20/members  
\$30/non-members**

**WEDNESDAY  
JULY 28, 2021
